The Institution was established in the year 2007 and is affiliated to Anna University Chennai. The Institution is well known for its high educational standards with excellent infrastructures, spread over 200 acres and is located on the Coimbatore - Pollachi National Highway. The Institution currently offers 6 UG and 4 PG programs.

## ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering and Mechnical Engineering was started in the year 2007 with vision to develop Centre of Excellence in the wide area of Electronics & Communication with latest simulation Software and eminent faculty member with good academic records. Our Department got **Research Centre**Recognition from Centre for Research Anna Engineering Field and to promote innovative research and development.

The department has well equipped laboratories University Chennai.Under R&D many students doing their project in our department itself.

## ABOUT THE SEMINAR

This seminar focuses on the latest technologies, strategies and challenges faced by power electronic systems, electric drives, renewable energy resources integration, and the interconnection to modern power systems, and operation in the smart grid for a better, smarter and more environment-friendly power system. Focus areas of the short course are Power Electronic Converters, Control Systems, Smart Grid Technology, Renewable Energy Resources, Distributed Generation and Grid Interconnection, Electric Vehicles, Energy storage & battery charging techniques, FACTS & Custom power. This seminar will also offer laboratory sessions for demonstrating the development aspects of power electronic converters and smart grid for renewable energy sources integration and transportation applications. Various hardware will be used for the hands-on and demonstration.An innovative and unique programme is Department of Electronics and Communication Engineering jointly conducted with the Mechnical Engineering, Hindusthan Institute of Technology, Coimbatore plans to organize a National Seminar on the "Power Electronics Applications to Smart Grid and Integration of Renewable Energy Source"

## TOPICS TO BE COVERED

- **Future Electric Grid with Power Electronics based Utility Interface.**
- **Grid integration of renewable energy systems including power quality.**
- **Control of grid power electronics system in an unbalanced grid.**
- **Renewable-based off- Grid/ Grid-Interactive systems.**
- **Topology of grid power electronics system.**
- **Energy storage technologies for hybrid energy systems.**
- **Micro-inverter for grid integration of solar modules.**
- **Advances in energy storage technologies and applications for renewable energy integration.**

## RESOURCE PERSONS

Academicians from IISc/IITs/NITs/VIT, Professionals from CDAC and industries are invited to deliver lectures in the STC

## ELIGIBILITY

The faculty, Post Doc., Ph.D. scholars, PG/UG students, and working professionals from various industries can attend this STC
