ABOUT THE COLLEGE

Hindusthan Institute of Technology is one of the leading Engineering Colleges imparting quality Technical Education to the aspirants from Tamilnadu and other neighboring states. It is run by Hindusthan Educational and Charitable Trust under the leadership of Sri.T.S.R.Khannaiyann and Smt. T.R.K Sarasuwathy Khannaiyann.

The Institution was established in the year 2007 and is affiliated to Anna University Chennai. The Institution is well known for its high educational standards with excellent infrastructures, spread over 200 acres and is located on the Coimbatore - Pollachi National Highway. The Institution currently offers 6 UG and 4 PG programme.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 2007 with vision to develop Centre of Excellence in the wide area of Electronics & Communication Engineering Field and to promote innovative research and development.

The department has well equipped laboratories with latest simulation Software and eminent faculty member with good academic records. Our Department got **Research Centre** Recognition from Centre for Research Anna University Chennai.Under R&D many students doing their project in our department itself. The depatment was accredited by NBA, NAAC with ‘A‘ Grade

VISION

To develop value based professionals with a strong foundation in Electronics and Communication Engineering and innovative technical skills with eminent leadership qualities and ethical conduct.

MISSION

MD1: To establish a conducive and inspiring learning environment towards value based education.

MD2: To educate the students with the state of art technologies to meet the growing challenges of the industry and to guide them towards research in varied fields of Electronics and Communication Engineering.

MD3: To provide a quality system for wholesome learning to achieve progress and prosperity in life along with moral values.

SCOPE OF THE SEMINAR

The objective is to focus on the Global Economic Growth has contributed to a dramatic Rise in world energy demand. The renewable energy technologies plays a vital role in meeting Such energy demands .Even though these renewable energy methods are effective to some extent, Still blackout condition, grid failure and transmission losses prevail in the country Below are the topics which are covered in the seminar.

- ✓ Electricity generation from solar photovoltaic cells
- ✓ Grid code requirement overview
- ✓ Power generation for sustainable development.
- ✓ Solar thermal
- ✓ Wind power and PV, dynamic behavior
- ✓ DC-Micro Grid-An overview
- ✓ Hydrogen and fuel Cell System
- ✓ Energy efficient LED’s ,Electric vehicles.
- ✓ Solar photovoltaic
- ✓ Frequency control for wind power and PV
- ✓ Renewable Energy Technologies
- ✓ Future Challenges in Energy
- ✓ Grid study approaches
- ✓ Grid code compliance procedures applied at different stages of a VRE project

ELIGIBILITY

UG,PG Students and Faculty members from AICTE approved Engineering Colleges, participants from Industries and R&D organizations.

ACCOMMODATION
