ABOUT THE COLLEGE

Hindusthan Institute of Technology is one of the leading Engineering Colleges imparting quality Technical Education to the aspirants from Tamilnadu and other neighboring states. It is run by Hindusthan Educational and Charitable Trust under the leadership of Sri.T.S.R.Khannaiyann and Smt. T.R.K Sarasuwathy Khannaiyann.

The Institution was established in the year 2007 and is affiliated to Anna University Chennai. The Institution is well known for its high educational standards with excellent infrastructures, spread over 200 acres and is located on the Coimbatore - Pollachi National Highway. The Institution currently offers 7 UG and 4 PG programs.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 2007 with vision to develop Centre of Excellence in the wide area of Electronics & Communication Engineering Field and to promote innovative research and development.

The department has well equipped laboratories with latest simulation Software and eminent faculty member with good academic records. Our Department got **Research Centre** Recognition from Centre for Research Anna University Chennai.Under R&D many students doing their project in our department itself.

VISION

To develop value based professionals with a strong foundation in Electronics and Communication Engineering and innovative technical skills with eminent leadership qualities and ethical conduct.

MISSION

MD1: To establish a conducive and inspiring learning environment towards value based education.

MD2: To educate the students with the state of art technologies to meet the growing challenges of the industry and to guide them towards research in varied fields.

MD3: To provide a quality system for wholesome learning to achieve progress and prosperity in life along with moral values.

ABOUT THE SEMINAR

Main goals of the this seminar participants enthusiastically embraced their charge to develop priority recommendations for creating a national SCD awareness and education campaign. As they worked in small groups, they were able to make broad recommendations about target audiences, messages, implementation strategies, and partnerships. Although no single target audience emerged as a priority, the following three audiences were deemed essential: people who have SCD and their families, the general public, and health care providers

Other general recommendations stemming from small-group discussions included the following:

- Raise awareness among affected populations about treatment and
- Raise awareness among targeted segments of the general public about SCD, sickle cell trait, and their implications.
- Encourage people affected by SCD to become empowered about their own health and seek appropriate medical care.
- Educate primary health care providers about the management of and new standards of care for patients of all ages who have SCD.

SUB-THEMES

- About of Sickle Cell Disease (SCD).
- Techniques for the Detection of Sickle Cell Disease
- Clinical Picture of the Inherited Hemoglobin Disorders
- Techniques and Assays to Diagnose and Monitor SCD
- Current Techniques to Diagnose and Monitor SCD
- Innovative Techniques for the Diagnosis and Monitoring of SCD
- **Actions@75,National Education Policy, Azadi Ka Amrit Mahotsav'Theme**

ELIGIBILITY

Faculties from Engineering Colleges, Research Scholars, Industrial Persons and UG & PG students are eligible for the hands on training.

REGISTRATION

No registration fee for all the participants. Registrartion is limited to 75 participants and selected on first-come-first serve basis. The applicants should fill the below Google form link and upload their scanned copy of application.

SCHEDULED DATE

Last Date for Registration : 02.02.2023
Intimation of Selection : 05.02.2023
Confirmation by Participants : 10.02.2023
