ABOUT THE COLLEGE

Hindusthan Institute of Technology is one of the leading Engineering Colleges imparting quality Technical Education to the aspirants from Tamilnadu and other neighboring states. It is run by Hindusthan Educational and Charitable Trust under the leadership of Sri.T.S.R.Khannaiyann and Smt. T.R.K Sarasuwathy Khannaiyann.

The Institution was established in the year 2007 and is affiliated to Anna University Chennai. The Institution is well known for its high educational standards with excellent infrastructures, spread over 200 acres and is located on the Coimbatore - Pollachi National Highway. The Institution currently offers 6 UG and 4 PG programs.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 2007 with vision to develop Centre of Excellence in the wide area of Electronics & Communication Engineering Field and to promote innovative research and development.

The department has well equipped laboratories with latest simulation Software and eminent faculty member with good academic records. Our Department got **Research Centre**Recognition from Centre for Research Anna University Chennai.Under R&D many students doing their project in our department itself.

About NABARD

Recognising the importance of institutional credit in boosting rural economy, the Government of India through the Reserve Bank of India constituted a Committee to review the arrangements for Institutional Credit for Agriculture and Rural Development. Thus, National Bank for Agriculture and Rural Development (NABARD) came into existence on 12 July 1982 by transferring the agricultural credit functions of RBI and refinance functions of the then Agricultural Refinance and Development Corporation (ARDC). Consequent to the revision in the composition of share capital between Government of India and RBI, NABARD. Today is fully owned by Government of India. The Vision of NABARD is the development Bank of the Nation for Fostering Rural Prosperity. Therefore, it's Mission is to promote sustainable and equitable agriculture and rural development through participative, financial and non- financial interventions, innovations, technology and institutional development for securing prosperity. NABARD aimed at building an empowered and financially inclusive rural India through specific goal oriented departments that are categorized broadly into three heads: Financial, Developmental and Supervision

ABOUT THE SEMINAR

Mahatama Gandhi always believed that the "Future of India Lies in its villages" and he was convinced that "If the villages perish, India will perish too". For him rebuilding of the nation could be achieved only by reconstructing villages. Though urbanization is increasing and consequently proportion of rural population in total population is gradually on decline still close to seventy present population or 743 million people, as per census 2011 live in rural areas and despite declining share of agriculture and GDP, agriculture continues to employ around half the country's total workforce and over two-thirds of the rural workforce. In other words employment pressure on agriculture is tremendous and agricultural development is key to poverty eradication process. As the country aspires to double the farmer's income by 2030 the policy planner need to analyze issues related to agriculture in holistic manner.The other issues which are interrelated to agricultural development are of increasing inequalities in rural areas. Because of reduced farm size, increasing input prices and poor marketing linkages, many small and marginal farmers are leaving agriculture. Pushed out of agriculture these people join the ranks of unskilled labour in rural and urban areas. Even the medium and big farmers, because of poor infrastructural facilities and inadequate market linkages in many instances find agriculture non-economic. The farmers producing cash crops often hit due to poor facilities. The rural indebtness has always been a serious issue in public policy concern but indebtness coupled with market failures results in serious distress resulting in loss of human life.The proposed seminar attempts to highlight this agriculture transformation in rural India and will focus on understanding its dimensions and structure and the various challenges it generates for rural development and also attempt to discuss the possibilities that could be generated through molding agriculture transformation in fruitful manner so that it could act as a catalyst for poverty eradication and overall rural development.

SUB-THEMES

- **Contribution of Agriculture in Rural Development**
- **Agriculture Transformation: Structure, Dimensions and its Impact**
- **Agriculture Related Problems and Challenges in Rural areas**
- **Transformation of Agriculture and Livelihood Sustainability: Policies and Governance**
- **Reforming Agriculture through Food Processing and Value Addition for Rural Prosperity**
- **Mountain Agriculture and Sustainability**

RESOURCE PERSONS

This seminar content will be delivered from a pool of resource persons on the subject from leading prestigious academic institutions including IITs/IIMs/NITs/IIITs/Centrally Funded Institutes and industry experts.

ELIGIBILITY

For Advance-Seminar: The faculty members of the AICTE approved institutions, Research scholars, PG Scholars, UG Students participants fromGovernment,Industry Bureaucrats/Technicians /rofessionals/School Teachers and staff of host institutions.

REGISTRATION DETAILS

Registration Fee:Industry Bureaucrats-Rs.600, Faculty - Rs.500, Research Scholar - Rs.300,Student – Rs.200,

All Students/Faculty/Research Scholar have to pay as registration fee by Demand Draft in favour of 'The Principal, Hindusthan Institute of Technology', Payable at Coimbatore-32.

SCHEDULED DATE

Last date for Receipt of Application: **03.08.23**
Date of Intimation to Participants: **05.08.23**
Confirmation by Participants: **07.08.23**
